- ✓ Can be heated for extra comfort

Product Description

ABENA's Bed Bath Wipes are made from 100% viscose. The strong, quality material in our wipes ensures a nice, soft, and comfortable feeling when they come into contact with the skin. One great advantage of the Bed Bath Wipes is that they can be heated in the microwave, which provides a pleasant experience and extra comfort during the bed bath. The ingredients are carefully selected, not least to avoid the development of allergies. The wipes also contain allantoin, which is a moisturizer providing a soothing effect on the skin. A really good all-round wipe, which is ideal for bed baths and a comfortable and effective alternative to traditional washing with soap and water.
